"The Coin Machines Merry-Go-Round"

by Bill Gersh

"GREATER LIBERALITY"

For sometime there has been a belief current among many in the trade that an era of greater liberality was coming to the fore thruout the country, as far as the equipment of this industry was concerned.

As yet no distinctly discernible signs of any such great liberality have made themselves apparent. Perhaps here and there, thruout the nation, there have been statements made by certain civic leaders and politicos that coin operated equipment was not the 'ogre' they had formerly believed it to be.

But, in the main, the average office holder is still of the belief that, for some reason or other, coin controlled machines are harmful to the good and welfare of the average community.

This is one of the misunderstandings which many in this industry hope will be cured and overcome in the post-war era. Yet, there hasn't been any concerted move on the part of any coin machine leaders to help make this a fact.

Many good territories have been closed off to various types of machines. None in these territories were given the necessary aid of an organization in this industry to prevent such closings. Some of these areas have been closed for a very long period of time.

It is a well known fact in the trade that such cities as New York, Cleveland, Birmingham, Detroit, Atlanta, Milwaukee, Chicago, and many others thruout the nation, will not allow the operation of any type of coin operated amusement device, aside from certain types of arcade equipment which are so closely related to what is generally accepted as 'sports-type' equipment, that these cannot be adjudged anything but a coin controlled method for playing a noted type of well known sports amusement, such as bowling, etc.

Pinballs have long ago been condemned by these cities. There was no inner-industry organization that came to the fore to help offset such condemnation. There was no one in the trade, in fact, who could or would arrange for a better understanding with the civic leaders of these communities, with the newspapers, politicos, and all others who were against this type of amusement.

Yet the operators themselves, as well as the jobbers and distributors in these communities, wanted to fight and fight hard to bring better understanding to these civic leaders and the authorities for this amusement business.

Therefore, the thought that 'greater liberality' is going to ensue after this war is over, had best be forgotten. As should the fact that present taxes are going to be cut down be forgotten. Neither greater liberality nor lowered taxes will become fact as easily as that. But they can become fact in one way.

And that is—if the members of this industry will arrange for the organizing of a Public Relations Bureau, which has been urged upon this trade time and time again by this publication. Such a bureau is a most definite necessity. All in this industry will agree such an organization is needed to help bring about better understanding. And perhaps thru such better understanding, greater liberality from the average publican for the products of this amusement business will eventually result.

Only a Public Relations Bureau, staffed by experienced and capable men, can arrange for helpful discussion to overcome whatever factors there are against any division of this industry in any community. Such an organization can work on a national scale. It can help enter into local effort to prevent the closing, and to also bring about the opening, of certain valuable territories to further the future progress of this business.

"The Coin Machines Merry-Go-Round"

The manufacturers of amusement machines, when they can again get into production, will need all the territory they can possibly obtain. This will prove of value to all the trade. First of all, with manufacturers able to continue to produce in volume, more will be attracted to the field, and this sort of competition is bound to bring about better equipment.

In the second place, with better equipment brought about by competition among those who desire to sell a good volume market, operators will earn more and the wholesalers likewise will profit. Therefore, from every standpoint, it is of value to continue to have volume markets for the products of this industry.

But volume markets cannot be had by just wishing for them. Nor can they be enjoyed by the leading factors in any field waiting for the small component parts of an industry, in local areas, to open these markets for them. Yes, the operators in the area will profit. But a good portion of the profit will also go to the jobbers, distributors and the manufacturers.

Only a Public Relations Bureau, fostered by the leaders in the field, can help to bring about better understanding, better knowledge, and therefore the opening of territory which has been closed, and also prevent closing of any further territory. This bureau should be put into action as soon as possible. It should be part of every present association. It should, most naturally, become the most important division of the manufacturers' organization.

No one man, nor any one division of the field, can completely carry the load for such an organization, if it is to be a unit of distinction in this industry. Just to call together two or three or more men, and announce that a Public Relations Bureau has been created, is of little value. Properly trained men, with good experience in such work, are the backbone needed for such an organization. Such men can gradually surround themselves with whatever help they will require.

To bring about this 'greater liberality' which all dream about in this field definitely requires that a Public Relations Bureau be put to work now. It will take some time to win the necessary recognition from the public. This may take longer than many even dream about at the present time. But it will eventually become fact, if the work is continued, and not hampered.

Surely, the situation could never be any worse than it is now. Surely, even the most desultory effort will be better than none at all. And just as surely, some good must result if experienced public relations men are at work to help build good will and understanding for this industry.

The most important fact is that everyone in this industry is most desirous that such a bureau be created. All know its worth. All believe in it. All agree that it is the one and only intelligent method to pursue to assure this business a better future. Therefore the creation of such an organization is up to the leaders in this field. They will find that the industry will flock to their banner and will help them with its creation.

Manufacturers realize the need for a Public Relations Bureau, for they are the basic factor in all the components which make this an industry. They are the men upon whom this industry completely depends for its future. The trade looks to them to start the most progressive action everytime. Therefore the manufacturers starting such a bureau, in their post-war organization, will inspire all to follow their lead.

The Public Relations Bureau which they create will naturally want to work with other units of like ilk created by operators' organizations thruout the country. This will be the beginning for complete public relations effort on a national scale. It will probably lead to one nationally recognized bureau, which will be of tremendous value to the trade at present, and of inestimable value for the future.

It is strange to note that in other industries, where it is believed there is no great need for a Public Relations Bureau, such bureaus do exist. The food people of the nation are benefitting today from the organization they created many years ago to help them present their side of the story to the press, magazines, radio and all other media that reaches the public. Aside from the advertising they are doing, their greatest effort is their public relations work. And they continue to pour more and still more into this work.

The same is true of many other outstanding industries, such as the automobile field, the steel trade, the drug business, and many more that could be mentioned by any man who has watched industries progress. Yet this trade, which has won a firm place for itself in the nation, is doing nothing to insure its position, and to make this position more firm for the future.

"The Coin Machines Merry-Go-Round"

Greater liberality will not arrive of its own accord. It is only brought about by the good actions of the men in any community, any state, and in the nation. These actions win acclaim, respect and recognition. After much such good action these men and their businesses are at last looked upon with greater benignity by the public. After this—greater liberality ensues.

Such is the case of the moving picture industry. The public continue to patronize the movies because they have a liberal belief in them. A belief that remains unshaken regardless of how many poor pictures may be foisted upon them. The great Public Relations Bureau of this industry is constantly at work to make sure that the public continues to retain its faith and belief in the movies.

It can safely be stated that almost every single movie goer in this nation has also patronized one or more types of coin operated equipment, whether peanut or gum vender, whether juke box or pinball, whether slot or arcade piece. And the greater majority seem to have liked coin operated equipment. It has relaxed, and it has also exhilarated them.

Why doesn't this industry, too, continue to strive for better understanding, for greater liberality, for more certain and growing patronage, for faith and belief, from the same people, by working to this end thru the good offices of a Public Relations Bureau, just as the moving picture industry does?

Those few who believe that greater liberality is coming to the fore regardless of any or no effort which this industry may put forth, have much to think about as yet. The State of Wisconsin's latest drives against this business are a complete and pertinent example as to how the general public's lack of interest will react when politicos, crusaders and blue-noses, decide that they can gain more renown by closing down on something, that cannot hit back at them with any more punch than a baby has.

Remember, too, that in the closing down of the state of Wisconsin to the amusement devices of this industry, many a solid citizen was hurt. Many a storekeeper will suffer. A great many members of this state's citizenry, not directly connected with this field, are going to find that the lack of the coin operated entertainment they were formerly able to offer, is going to affect their business adversely.

Where the average Wisconsin resort was able to accept a very fair rate for a day's room and board and sports, it will now have to practically double this charge, because the income from its many coin operated amusements will be lost to it. Eventually, it is hoped by many in the state of Wisconsin, that these influential real estate holders and tax payers will holler loud enough to overcome what the state's legislature in 1945 made into law. But as all in this field know, negative legislation is extremely difficult and very, very expensive, as well as one of the most torturous of all long drawn out legal processes.

The best thing that this industry can do for itself today is to urge and work for the creation of a Public Relations Bureau, whether this become part and parcel of the manufacturers' post-war organization, or whether it be created as an individual unit by the leaders in this field who desire to see this business continue on for many years to come—and continue on with better understanding from the public.

Already the NAMA (National Automatic Merchandisers Assn.) as reported by The Cash Box in its July 3, 1945 issue, have such a unit as part of their effort. Mr. Nathaniel M. Leverone, who is president of this organization, so stated to a reporter of "The New York Times", and this most noted newspaper published his entire statement at that time.

Mr. Leverone is to be complimented. His organization and each and every member of that public relations unit should be complimented for the effort which they have started, the work they are already doing, and they should especially be acclaimed for the fact that they already have a Public Relations Bureau right in their own association.

The music and amusement machine men of the nation have this same job to perform. It is hoped that they, too, will follow the lead of the automatic merchandising machine men. It is also to be hoped that after they have created their own Public Relations Bureaus as part of their organizations, that they will combine these with any others which might be in effect or might be created in the meantime and thereby combine these into a Public Relations Bureau of a National Board of Trade for this entire industry.

Thereby making it possible for all this industry, as a single and solid unit, to be able to wield a mighty influence for the future good and welfare of all concerned with this business.

"TALKING OUT LOUD"

MUSIC DEMAND SWINGS 'WAY UP

NEW YORK — Demand for music equipment of every type has sharply swung upward these past weeks. This demand is reported to be greater than at anytime since the war started. The average music man reports that machines are at such premium that it is humanly impossible to supply the demand which has resulted.

Thruout the country leading music coinmen report that they have been trying desperately to obtain as much music equipment as they possibly can to cover locations in their territories, regardless of prices, so that they would be completely prepared when the new units are shipped to them.

The average music man is first asking for the latest model phonos and also for as many wall boxes as he can obtain to go along with these. With cable extremely difficult to obtain, many have been forced to cut down on use of wall boxes in locations, according to reports.

Regardless of the fact that in some territories there are rumors that new machines may be seen right after the first of the new year, the juke box men are paying little attention to these statements and are arranging to buy whatever they can at this time.

The following letter more or less explains the present situation, "There is no doubt anymore that the demand for music machines is greater than the supply. We have been trying to get as much music equipment as possible, and we can only report that we were able to buy just a few pieces here and there.

"We believe that the best thing we can do, before the new music machines come to market, is to cover our territory thoroughly and thereby be prepared with locations for the new equipment. We don't believe that we will lose any money working in this fashion."

The average juke box man also believes that it will take many months for the new machines to make any dent in the large market that has been created. He therefore feels that whatever he buys now will be amortized before h has to replace it with new equipment.

Demand continues unabated and prices are again on the way up with music number one in sales on the present market.

SEPARATE DISTRIBS-OPS

NEBRASKA CITY, NEB. — Mason L. Colbert of this city recommends that operators and wholesalers be completely separated. He writes, "We think that jobbers and distribs should be separate from operators and that no factory should sell to any wholesaler who operates.

"We believe that the operator who really represents the coin machine business should be chosen a little more carefully than he has been. In this way many unpleasant characters would be barred. And the wholesalers would help clean up the business by such action."

MAGUIRE INDUSTRIES TO MAKE RECORD CHANGERS AND FOOD UNITS

NEW YORK—Maguire Industries, Inc., the company created since 1939 by Russell Maguire, have developed a simplified record changing mechanism to be used in its radio-phonographs and will also sell this unit to other manufacturers.

Interesting to the vending machine men is the fact that this firm have also developed a line of compressed dehydrated foods. A special display dispenser has been devised for self-service stores. Each dispenser holds 12 stacks of food briquettes.

Each briquette is extremely small. It is stated that a housewife can carry a meal home in her purse. Precisely measured briquettes reduces the need for kitchen measuring.

The major accomplishment of this process is to give unusually long life to food. In coffee, for example, the pressed, cellophane-wrapped package adds two weeks to the shelf life of the product.

For sometime vending machine men have been talking of merchandisers which could be placed in apartment house lobbies and which would handle food products.

The development of this compressed, dehydrated food which Maguire Industries are now shipping for the Army and War Food Administration may prove to be the answer to what automatic merchandisers have been seeking.

WANTS 'DISC-HITS' PAGE PERFORATED

MADISON, WIS.—Louis Glass of Specialty Sales, this city, writes, "Why don't you perforate the Disc-Hits Box Score page so that it can be easily removed?"

(If there are a majority of readers who would like to have this happen The Cash Box would like to hear from them and will be happy to comply with their request.)

BELIEVES DEALERS AND OPS SHOULD BE ON GUARANTEE BASIS

DUBUQUE, IA.—M. C. Mai of General Sales Co., this city, believes that not only wholesalers, but also operators, should be placed on a guarantee order basis so that they can be identified as bonafide dealers and operators.

Mr. Mai writes, "The manufacturer should have a guarantee from anyone claiming to be a dealer backed up by a deposit agreeing to use a certain total of his product each year. Then and only then should he be given a dealers' price on anything.

"Operators should guarantee to buy a certain amount of equipment from a dealer each year and should have said guarantee backed up with a deposit before expecting and getting operators' prices.

"Should the operator be unable to do so he should be referred to another operator who, in turn, could if he felt like it, sell him a smaller amount of equipment, at the same time considering where the pieces would be used.

"The smart operator will never sell equipment to a location as it only welcomes competition in his territory. If he has used equipment which he doesn't intend using he should turn same into a dealer tho he may get a little less for his used pieces."

WANTS MECHANICAL FEATURES IMPROVED

BRATTLEBORO, VT.—Hal L. March of this city believes that manufacturers can make many improvements in their post-war products which will benefit all the trade.

He writes, "The manufacturers of pin games should first of all cut off the sign, '5 Balls For 5c'. In a great many places machines are now being operated with this sign cut off. They should also cut off the 'Free Play' sign and use the word 'Replay' instead. In court there is a lot of difference between a 'free' and a 'replay'. And, most of all, make the games better mechanically. Goodness knows at the prices being paid today for revamps, they can be gold-plated.

"Music machine manufacturers should standardize all tubes and all parts as much as possible on all models. Some manufacturers change every model. In a great many instances these changes aren't necessary. A mechanic actually needs a trailer to carry enough parts to service all models.

"Manufacturers should build machines for the mechanics. Some parts are so inaccessible that it takes hours to get at them. My mechanics have proved that some parts are put into a machine without any regard for servicing.

"Every music manufacturer should have a 'tone leveler' so that all records could play at the same volume. This is very important in my opinion."

RETURN COPPER PENNY

ST. LOUIS, MO.—Carl Trippe of Ideal Novelty Co., this city, writes, "I have a suggestion to make which would especially interest Arcade men. The pennies made out of cheap metal really caused a lot of grief in the Penny Arcade machines. I wonder if there is any way to stop the Government from making these."

(U. S. Mints are no longer making the lead and zinc pennies and are back to copper pennies. These former should be saved and turned into banks.)

SOUTH AMERICAN BUYERS FLY HERE

NEW YORK — Demand for American merchandise is so great thruout the Latin American countries that buyers are flying up here every week to obtain whatever merchandise they can.

Merchants from Brazil, Colombia, Argentina, Venezuela, Chile, Bolivia and Ecuador are reported to be coming here to buy.

Some coinmen report that they have been visited by some of these business men in search of various types of machines.

Biggest pre-war difficulty of developing the Latin-American markets for coin operated equipment was due to lack of proper denomination hard coinage.

WANTS SUGGESTIONS ABOUT BUCKLEY BILL

MORGANFIELD, KY.—Guy P. Collier of this city believes that some suggestions should be forthcoming as to what the average music operator can do to help prevent the passage of the Buckley Bill, now in the Patents Committee of the House of Representatives.

Mr. Collier writes, "I personally believe that your article in the July 24 issue of The Cash Box is very good and very well written. I am also of the opinion that something should be done about it, and at once. I also realize that I am a very small pebble on the beach and therefore can do very little.

"Considering the above it seems to me that it would be an excellent idea for you to give your space in the next issue to telling the music operators just what they can do to stop this thing. I'm sure that everyone wants to do something, but most of them do not know just how to go about it.

"I noticed that the ITDA, an organization of tire dealers, wanted a bill stopped and their publication urged them to write to the sponsor of the bill, gave his name and address, and an idea of what to say. They also urged the dealers to write to their Senators and gave an idea of what they should say. A copy of each letter was to be mailed to the publication.

"This is only a suggestion, but I believe that it might help."

(It might interest Mr. Collier to know that already, from almost every state in the union, operators have written to Congressmen on the Patents Committee as well as to their own Congressman regarding the passage of this bill. In some cases associations have also made personal representation. In the meantime, with the Buckley bill still in the Patents Committee, the trade is preparing to make full representation when this bill comes up for hearing, according to reports.)

THRU THE COIN CHUTE

NOW'S THE TIME TO ASK OPA TO REMOVE PRICE CEILINGS FROM USED EQUIPMENT

OES Directive 68 Allows OPA to Suspend or Exempt Commodities from Price Control. Creation of Committee of Leading Used Machine Dealers Urged to Ask Exemption.

WASHINGTON—Plans of the Office of Economic Stabilization and the Office of Price Administration to suspend or exempt commodities from price controls crystallized with the issuance of OES Directive 68, outlining methods OPA is to follow in removing price ceilings.

Under this Directive, Price Administrator Chester Bowles is authorized to remove controls when, in his judgment, the action will not result in an increase in the general level of prices of the item involved.

These are the three conditions which must be met prior to allowing for suspension or exemption of further price control:

1) *The commodity or service does not enter significantly into the cost of living or into business costs.*
2) *Continued control involves administrative difficulties out of proportion to the effectiveness of control or the contribution to economic stabilization.*
3) *Suspension or exemption presents no threat to diversion of materials, plant facilities or manpower from war production or production of other commodities, and does not impair effective price control on other items.*

There is no doubt, after reading the above conditions, that price ceilings can be removed from coin operated used machines. This is the time, therefore, for the trade to once and for all remove the specter of possible prosecution from the used machines field, by arranging for a committee of leading used machine dealers to meet with OPA's officials for this industry in Washington, and ask for exemption from further price control.

The Cash Box for some time worked with the officials for this industry at OPA and asked that price control on used coin operated machines be suspended, so that this division of the trade could proceed with greater efforts and be in position to enter into the post-war period fully prepared to purchase and handle the new equipment when it would again be produced.

It must be remembered that this industry labors under two price regulations. These are: 1) GMPR (General Maximum Price Regulation) which applies to wholesalers, and 2) MPR-429 (Maximum Price Regulation No. 429) which applies on sales to the consumer.

The Cash Box has argued that the operator is to be considered a "wholesaler" because of his unique merchandising position in this industry. OPA desired that the operator be considered a "consumer". This was a point of contention and remained such.

Furthermore, this industry has the finest sort of price control which could ever have been originated—that of the coin chute—which is "automatic" price control in itself.

The Cash Box further argued that regardless of the fact the cost of materials, parts, supplies, labor and general overhead had tremendously increased since the war started, the cost of entertainment or merchandise via coin operated equipment, had remained the same as long before the war.

In short, tho records, needles, service, labor, etc., cost more today, the public can still put a nickel into any juke box and get its tune. This is exactly the same price the public paid long before any OPA was ever in existence.

It must also be remembered that this industry is rapidly arriving at that point where new machines will soon be in production. This can happen early in 1946.

That being the case, then price exemption should be immediately arranged for from the standpoint that it will allow for unhampered action on the part of those dealers who will want to rid themselves of equipment to foreign countries as well as to the domestic market.

In short, then, elimination of price controls over the used machines of this industry will allow for this industry to better prepare itself for the post-war era.

At the same time, studying the above three conditions which must be met by any product or commodity prior to exemption or suspension from further price control, it can very easily be proved that:

1) *Used coin operated machines do not enter significantly into the cost of living or other business costs.*

2) *That continued control over coin operated used machines, as exercised by the Office of Price Administration, involves administrative difficulties out of proportion to the effectiveness of control or the contribution to economic stabilization. This can be even better proved by asking this same question of the former heads of the Consumer Durable Goods Division, George Toomey and Ellis G. Bishop, who made long studies of the coin operated used machines field and admitted that effective administration was "practically impossible".*

3) *Certainly suspension or exemption of price controls on used coin operated machines will in no fashion whatsoever act as a threat to divert materials, plant facilities or manpower from war production, or especially the production of any other commodities, or impair effective price control of the latter.*

It is now up to the leaders in the used coin operated machines field to come together and appoint a committee from among themselves. This committee should proceed to Washington and meet with the new head of the Consumer Durable Goods Division. The committee should ask for exemption or suspension of used coin operated machines from further price control.

Not only because such exemption or suspension will meet with the above three conditions outlined by Price Administrator Chester Bowles, but because such exemption will once, and for all time, cure the problem with which OPA has labored with regard to price control of used coin operated machines, and thereby allow an industry to proceed with greater effort for its own better future welfare.

THRU THE COIN CHUTE

OPA ALLOWS MFRS PROFIT HIKE

WASHINGTON --Moving its pricing policies from the realm of theory to actual practise OPA, this past week, issued the first of its industry-wide "price increase factors" and also issued "profit factors" for 17 specific industries, among which was the coin operated machines industry.

Under the industry-wide reconversion pricing formula (which was reported some weeks ago in The Cash Box) OPA offers industries an alternative to their 1942 ceilings. They may request ceiling revisions based on 1941 costs, plus legal increases in materials prices and basic wage rate schedules for factory employees, plus the industry's average pre-war profit margin for the years 1936 to 1939.

The ceiling revision is calculated on the basis of average costs and profits and sets an "increase factor" which each individual manufacturer in the field may apply to his own ceiling price.

Manufacturers of coin operated machines (as issued in OPA Supplementary Orders Nos. 118 and 119) can now increase their "profit factors" by 2.4 percent. (Manufacturers of phonographs and radios can increase their profit factor by 3 percent.)

This means that the manufacturers, either basing themselves on their '42 price or using the '41 pricing method, can now add an additional 2.4 percent profit margin on their individual ceiling prices.

The trade's belief that machines would cost more than pre-war now proves true. With materials costs and wages approximately 20% to 30% above pre-war, and with the additional profit factor allowed the manufacturers, prices of post-war equipment are expected to range anywhere from 25% to 40% above pre-war, according to leaders.

WURLITZER GETS 4TH AWARD

NORTH TONAWANDA, N.Y. - Employees of The Rudolph Wurlitzer Company here have been awarded the Army & Navy Production Award for the fourth time, according to notification received from Robert P. Patterson, Under Secretary of War.

"By maintaining the distinguished record which previously brought you distinction," Secretary Patterson wrote, "you are once again proving your leadership on the production front."

In acknowledging the award, Carl E. Johnson, Vice-President and General Manager of Wurlitzer's North Tonawanda Division stated, "Our employees have worked diligently to support the needs of the Armed Forces. We are united in a firm resolve to continue with every resource at our command the task of supplying the finest in quality and the maximum in quantity in the shortest time possible."

Constantly increasing deliveries of vital war equipment are being made to all branches of the military service by the Wurlitzer factory here. Emphasis is currently placed on production of electronic devices, altho extensive schedules of aircraft and communication parts and accessories are also being carried out. Employment continues at wartime peak with further growth anticipated for the balance of the year.

NEW ORLEANS PAYS U.S. MILLION

NEW ORLEANS, LA. - J. O. Fernandez, U. S. Collector of Internal Revenue, this district reported this past week that revenue from amusement taxes have more than trebled in the past three years.

Slots, pin games and other coin operated machines, according to Hernandez, paid off $1,107,100.18 in taxes for this year. (Coin machine taxes in 1944 amounted to $936,377.76 and in 1943 totalled $433,751.27.)

The cashier's division of the Collector's office reported that the increase in the number of slot machines accounted for almost the entire increase in the number of coin operated devices now operating in this state. He also reported that juke boxes remained at about the 1943 level.

Coinmen here predict that they will pass the million dollar tax mark again next year. They also believe that there will be an increase shown in other types of machines and that slots will show very little increase, if any.

Juke box men believe that the greatest increase which will be shown in this state will be the larger number of juke boxes once the new machines start coming off production lines. Distributors here report many large advance orders for jukeboxes.

THRU THE COIN CHUTE

WPB GIVES MORE COPPER TO REPAIRMEN

WASHINGTON - The amount of copper repairmen may purchase in a calendar quarter, without WPB authorization has been increased from $75 worth, or 1/10th of what they used in making repairs in 1941, to $150 worth, or 1/8th of 1941 usage. This action was taken by WPB on amendment of CMP regulation 9A.

Specific repairmen for whom purchases of copper wire have been relaxed are refrigeration, domestic appliances, electricians, electrical contractors and radio repairmen.

The amended regulation also removes the prohibition against use of new cord and other materials obtained under the regulation for certain specified types of maintenance and repair work.

FORCED TO SELL JUKE ROUTE-NO RECORDS

LOS ANGELES, CAL. - Louis Olson, formerly of Austin, Minn., writes that he was forced to sell his route in Austin last October due to the fact that he had such difficulties obtaining the records he needed.

He reports, "I had to buy 75% of my records at retail. I would have an order for 50 to 100 records and walk out with 10 or 20. And then stop at some retail store in my territory, 'Woolworth' or some others, and buy all that I needed.

"Since then I bought a route here in Los Angeles and have been getting fair treatment from the three record distributors."

TOWN OF 2500 TO UP LICENSE-OP ASKS HELP

DOUGLAS, WYO. - This town of 2,500 population has decided that it should receive $25 per year from each phono as annual license fee and an additional $1 per year fee for each wall and bar box. In addition to this a lot of red tape has been added to the methods of obtaining, changing and renewing licenses.

Bryan E. Edwards of Radio & Electric Service, this city, writes, "This means we will have to take out most of our machines except from the most profitable locations. Possibly we could cut commissions, but some operators like to give 50% to keep good will of the locations for other business.

"Any literature or other information on how to combat this tax, which is sure to spread all over our territory if not stopped, surely would be welcome at this time. We don't see how small towns get the idea of such stringent regulations."

FEDERAL TAX DECLARATION DUE JULY 31

WASHINGTON - The Federal Special Tax Declarations must be made before July 31 on all types of coin operated machines. Coin operated amusement devices, such as pinballs, music machines, ray guns, etc. belong in the $10 tax category. Slot machines, consoles, etc., machines involving the element of chance, belong in the $100 tax category. Bowling alleys are in the $20 tax category.

WPB ALLOWS 5% RADIO MFR-BUT NO JUKES

WASHINGTON - Production of certain radio equipment for civilian use under a type of spot Authorization will be approved soon by the War Production Board and is expected to ease a few shortages.

It is believed that under new WPB regulations governing the radio industry about 5% of the total output, based on 1941 figures, will be available for civilian users and 95% will go for military purposes.

Such electronic equipment as radio broadcast receivers and transmitters and automatic phonographs using electronic tubes will remain under restrictions.

FEW VETS PLANNING OWN BUSINESSES

NEW YORK - Vets returning from World War II are more interested in reestablishing their homes and resuming their ordinary occupations than they are in starting up new businesses, according to the National City Bank of this city. The bank reached this conclusion after analyzing the first 1,000 loans to former service men made by its personal credit dept. Only 6.3% were made for business purposes; Medical and dental expenses accounted for 46%; Furniture and household 21.2%; Clothing 9.2%; Insurance and taxes 8.5%; Miscellaneous 7.9%.

THRU THE COIN CHUTE

CHICAGO CHATTER

Lew London of Leader Sales Co., Reading, Pa. in town this past week and reported to have made one very important contact.....Meyer M. Marcus of The Markepp Co., Cleveland, O. also seen around town this past week and looking for "moosic".....Coinmen seen in town this past week include: Cecil Rider of Gibson City, Ill., Tony Hooperstead of Woodstock, Ill., Earl Blakesley of Lansing, Mich., G. Moore of Atlanta, Ga., J. F. Davis of Cartersville, Ga., Carl Hoelzel of United Amusement Co., Kansas City, Mo.....Mac Churvis just back from the West Coast calls our attention to an error we had in our column reporting that Mac had become the Grandpap of a "girl" - "It was a big, bouncing baby BOY", says Grandpa Mac.....Sylvia Gordon the popular gal who keeps the books and everything else in order in the front offices of Automatic Coin Machines & Supply Co. is happily rejoicing over the return of her brother, Major Orville Gordon who has been overseas for more than 3½ years. Sylvia reports that she cancelled a vacation to California to be present at the joyful reunion.

Gil Kitt of Empire Coin Machine Exchange in high glee and plenty excited because a gusher of oil was found close to his 250 acres down near San Antonio, Texas, "Maybe I'll be an oil man yet", Gil said.....Eddie Ginsberg looking healthier than ever now takes over the active business at Atlas Novelty Co. while brother Morrie takes the family to the Wisconsin woods for a vacation.....Al Douglis and his son-in-law Ben Lutske seen talking it over with Al Stern of World Wide Distribs. (Wonder what's cookin'?).....By the way, there's no dull moments over at World Wide Distrib's quarters. Al simply keeps things humming all day long - and far into the night, too..... Dick Hood takes on another big order from Uncle Sam for those 'I.Q.' machines that have been the talk of the industry.....Irv Ovitz and the Mrs. hop a plane to meet Mrs. Ovitz's brother who returned unexpectedly from the European front.....Harold Pincus of Coin Machine Service reports that he intends to distribute radios and electrical appliances as well as coin parts post-war.....Harold Baker (Baker Novelty Co.) says, "It's okay to mention we've completed negotiations for that Mexican slot operating deal."

Any sunny afternoon and Roy (Monarch) Bazelon is out on the golf course trying to do 18 holes in under 90. Roy has been playing more golf than ever before in his life - since Harry Pearl of Elizabeth, N.J. came 'round and took him for a real lesson.....Jimmy (Globe) Johnson and his partner Frank LaMaskin prouder than all get out over the letters that arrived one day this past week praising them on the marvelous reconditioning work they do. (And, believe me, they deserve it).....Just heard that Jack Keeney is on the sick list.....Dave Gottlieb still out west in golden California seeing what's to be seen.....Harry Brown entertained Barney (Shugy) Sugerman and Abe Green of Runyon Sales Co., Newark, N.J. when the boys were in town with some of the swellest steak dinners ever eaten by these Newarkers.....Wonder if all those boys over at Lion Mfg. Corp. all smoke those new "Lion" ciggies - especially at those important conferences they've been having of late. The lion on the pack of these ciggies is an amazing take off from the one in the gorgeous lobby of the Lion factory. (Maybe Ray Moloney is now making cigarettes, too.)

Visitors to Pat Buckley's plant very, very much impressed with what Buckley is preparing to present after the war. One distrib. who visited there last week, said he wished he could announce just a few of the items first. "They're terrific", he claimed.....Downstate juke box men report that there's a heavy tax bill in the making .....Six Chi manufacturers expected to pop with beverage dispensers the moment they can start making 'em.....DeWitt (Doc) Eaton, General Salesmanager of Automatic Instrument Co. and John Haddock, president of the firm, are leaving for another trip. Both men have been busy greeting callers at their offices.....Henry Roberts at Mills is reported to be deluged with phone calls and personal visits every day of the week.But as yet Heinie is reported to be mum about just what will be what with the new Mills music line.....Lyn Durant of United is proving one of the most popular of the pin game manufacturers with many distribs wanting the "ex" on his post-war line....Have Harry Brown and Dave Yaras started a new venture in town?.....A new phono manufacturer is expected to announce himself almost any day now - and from Des Moines, Ia.

Al Sebring (Bell Products Co.) is clearing the decks with one of the biggest sales in the firm's history so as to have less equipment to move into his new offices and showrooms at 2000 N. Oakley on August 1.....Pioneer Coin Machine Co. introduces itself to the trade with a brand new revamp.....One of the boys from St. Paul expected around soon to say "hello".....Phono prices have the boys all whistling these days and yet they continue to get more scarce every hour.

THRU THE COIN CHUTE

EASTERN FLASHES

Jack Jaffe, well known coinman, who has been operating in New Orleans for some-time now, was suddenly stricken with a heart attack and passed away this past Monday (July 23). The news of his sudden death came as a great shock to many of Jack's friends.....Al Ravreby who is in charge of the Broadway Playland while brother Ed is spending his time in Boston getting their distrib quarters ready, reports that this noted spot was honored by the presence of Abbott & Costello, Earl Carroll and Pat Rooney this past Sunday and that these noted theatrical personalities really played the machines to a fare-thee-well.....Ed Ravreby, by the way, phones in from Boston to suggest that all the jobbers and distribs thruout the nation sit tight and not let the market go haywire.

Hal L. March of Brattleboro, Vt., writes to advise, "About bill H.R. 3190 of Rep. Buckley, just heard from our Representative who is going to look into it. He also says that the House approved a resolution to adjourn to October 8, so unless action has already been taken, nothing can happen until Fall."....Jack Fitzgibbons is having plenty of fun demonstrating how to bowl those balls into the revolving barrel on the firm's new Roll-A-Ball game. And, in the meantime, is taking orders for more and . . still more machines.....Sam Mendelson pops into town and claims that he will soon have something of good interest for the juke box trade.....The distribs here claim that plenty of machines are being shipped into Canada at this time.....Bernie Goodman of Symphonola Music, Hoboken, ready to surprise with a great increase in music.

Jackie Fields of Pittsburgh (former two-time welterweight champ) who was married to Didi Foret at the Savoy-Plaza a few weeks ago, told friends that one reason for his getting married was, "I want a son and I want him to be able to tell the kids on the block 'My dad was the champ'."....According to some coinmen New York can be opened on novelty type pins anytime, according to former Judge Rosenman's decision..... That new phono mfr. has the boys here guessing.....The Tuesday lunch gabbers club at Roger's Corners, which usually includes Charley Aronson, Bill Alberg, Eddie Smith, Meyer Lansky, Willie and Teddy Blatt, Eddie Ellis, and whoever else happens to come along are, reported to have the beginning of "The Tuesday Coin Machine Lunch Club".... Phonos are becoming scarcer than hen's teeth around these parts.

Leonard Lyons reports that all Army hotels on the Riviera (in France) have slots. And the owners of the slots pay 300 francs per day license fee....Ted Mair of Mac seen dashing home to cool off for the weekend.....Some well known arcades at the seashore and in the mountains expected to close for good after this season.....Is there a high phono tax in the making for N.Y.C.? ....Leo Willens of the U-Need-A-ciggy vender reported to be busier than ever.....Who's that new coinman who opened at 88 Clinton Ave. in Newark?.....Dave Stern claims that he is now chief cook and bottle washer at Royal Distributors in Elizabeth and is looking for a 7 Beta Kappa man to replace him. Tom Burke of the firm reported to spend most of his time fishing these days. Harry Pearl out practising up on his golf game for the two man tournament he expects to hold in Chicago with Roy Bazelon.

Ben Becker of Palisade Specialty becomes a summer bachelor this past week and the very first evening is taken over to the cleaners by that new "gin" champ - none other than Hymie Rosenberg.....Bill Burke, East Coast Music, Chester, Pa., phones in to report that he involved himself in a twisty deal and wants to cure it quick.....Bill Suessens phones in to report that in conversations with one of the leading record manufacturers he believes that their legal staff is going to give the trade some help on the Buckley bill....Barney (Shugy) Sugerman and Abe Green of Runyon Sales Co., Newark, return from their Chicago visit to report that it was one of the most successful trips they had ever made, as well as one of the most entertaining. Says Shugy, "I never knew that Harry Brown could buy so many dinners."

Moe Luber works so hard during the day, he reports, that when he at last does get to bed - he's still winding motors in his sleep.....Nat Cohn and Jack Mitnick discussing this and thata about phono distribution and both expected to bust open with a surprise any day now.....What would happen if Charley Katz couldn't buy anymore cigars? .....Hy Greenstein of Minneapolis writes in to report that music ops in his part of the world claim that our campaign to get more records for juke box men is easing the record situation there.....There's a rush on here to get offices and showrooms set up by two of Jersey's best known distribs - who are reported ready to pop with announcements of new phono distributions.....Johnny Helfer and Joe Hirsch seen talking it over

THRU THE COIN CHUTE

NEW ORLEANS

You've got to hand it to Hand (J.P.Hand, chief of the income tax division) who walked into a Jefferson Parish spot and discovered 7 slots without any Uncle Sam's licenses for them. And brought Uncle Sam another $700.....Benny S. Cotita of Pascagoula, Miss., purchased a nice phono route here on the 20th of this month. Here's wishing you lots of good luck, Benny....We're so glad to know that Frank Anselmo of Johnny's Music House, who had a relapse after his operation, is feeling much, much better and on the way to recovery. Hurry up and get out of that sickbed, Frank, we want to see you around town again.....H. B. Brown has just taken over Joe Conforto's and Tony Loria's routes, making a combined total of 84 units for Brownie. Keep up the good work.

Bob McCormick back from meeting with Decca officials in Chicago and it seems that Bob also made the rounds of every leading nite spot in the Windy City. (Do they compare to our places, Bob?).....L. F. "Curry" Byrd, now dancing in the floor show at the Blue Room telling your reporter (Sally Adams) a lot of nice things all about George McQueen, now operating here, for whom Curry worked at the Club Forrest several years ago.....Jimmy Carter of Decca back home after 19 months of tough fighting in the Pacific.....Those chandelier speakers in F.A.B.'s windows are attracting a lot of attention .....And, by the way, we hear that Fletcher Blalock of F.A.B. is expected back any minute now.....(If you don't call around I can't get your name into my column, Sally.) .....Louis Boasberg on his way back.

MINNEAPOLIS

Joe Perkins, former owner of the Advance Music Co., St. Paul, is now the owner of a nite club in Coeur d'Alene, Ida., and reports that business is very good.....Mr. and Mrs. R. L. Cross of Fairmont, Minn. stopped off here on their way up north for a much needed vacation. They were accompanied by their 2 charming daughters.....Charlie Gumm of Bloomer, Wis. has the itch to get back into the phono biz - but quick.....Allan Pullmer and his charming wife from Winnipeg, Can., spent sometime visiting friends around town....Marty Morosnik of Winnipeg seen over at Hy-G buying lots of equipment.....Hy Greenstein tells us that result of The Cash Box efforts to help music ops get more records has been easing up of situation here..... Jovial W. H. Pickron of Rock Island, Ill. in town and as usual full of pep and stories.

Walter Hugeback of Red Line Vending Co., New Hampton, Ia. in town for a few days .....A. E. Grundeen of Northwest Piano Co., Minot, N.D., stopped off on his way to Chi looking fit as a fiddle and claiming biz is terrific....Roy Stone of Rice Lake, Wis. buying a phono route since slots and consoles went down in his part of the world. Roy intends to buckle down to the music biz. Now has about 90 pieces working..... I. F. LaFleur of Devils Lake, N.D., who spent his vacation in Chicago stopped off on his way back home to visit with friends here.....Fred Fixel of Pembina, N.D., one of the busiest guys around and still buying more....Clyde Newell back again at Mayflower. Nat Ingalls of Mayflower out of town on biz.....Benny Friedman of Silent Sales is going to be crowned one of these days - as the "rhumba king" - Benny claims the very charming Mrs. Friedman taught him how.....Cliff Wilson of Tulsa, Okla., in town buying equipment.

W. J. Mickey of Chippewa Falls, Wis. buying arcade equipment since the state went down.....Roy Foster of Sioux Falls,S.D., brought his family into town for a vacation - and plenty of shopping on the side.....Jack Michaud, son of Milly Birkmeyer of Automatic Sales Co., Litchfield, Minn. is now a 2nd Looey in the Marines and is home on furlough. He's a head taller and fit as a fiddle.....A. Skow of Skow & Ryan, popular operators of Frederick, Wis. in town buying equipment and doing a splendid job while Mr. Ryan is in the Army.....Some coinmen seen around the Twin Cities this past week: J.C.Weber of Blue Earth, Minn., Bill Welch of Chippewa Falls, Wis., Wm. Hunder of Wheaton, Minn., S. Kern of Menomine, Wis., Joe Topic and Phil Stang of Shakopee, Minn., George Nold of Wahpeta, N.D., J.E. Lowrie of Wabasha, Minn. and Al Eggermont of Minnesota, Minn. (And that's 30.)

LOUISVILLE

Hy Branson phoning in to tell us that some of the boys are taking it easy these days....Mr. and Mrs. H. J. Fisher are visiting the Johnny Cobbs here in Louisville. Mr. Fisher is an old timer in the coin machines business. Has been with firms like Mills and ABT. Remember him? ....John Smith of the Old Fort Amusement Co. now recuperating after his operation. John's three brothers are carrying on for him....Jack Fisher of Gardner around town making the rounds.....Tom Mattox of Walsh Mfg. also seen around visiting with coinmen.

DISC-HITS BOX SCORE

In Order of Popularity based on Weekly National Survey Compiled by

JACK "ONE-SPOT" TUNNIS

Box Score tabulation compiled on the average individual purchase on the basis of 1000 records — listed in order of popularity, including name of song, record number, artists, and recording on reverse side. Code: (CA) Capitol; (DE) Decca; (HI) Hit; (VI) Victor; (CO) Columbia; (BB) Bluebird.

C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

There's some Careful Buying going on these days . . .

★

. . . and in our business it is the operators who give each distributor and jobber the closest scrutiny.

★

In the East, these operators have their choice of many distributors.

★

It is significant that our customer list is ever increasing. It's gratifying.

★

Even more significant is the fact that operators in distant sections of the country come to us for real value in coin operated equipment.

★

★

Look To The GENERAL *For* LEADERSHIP

A TIP FROM AN OLDER GENERAL

A Chinese general of the early ages once pointed out that victory was assured if an army went into the field with a perfected plan.

Taking a cue from this earlier general, we have carefully formulated a program for the years just ahead. And we have the additional security of building our plans on the foundation of sound policies that have been tested during 20 years of uninterrupted operation.

ESTABLISHED 1925 —
GROWING STEADILY EVER SINCE
MEMBER U. S. CHAMBER OF COMMERCE

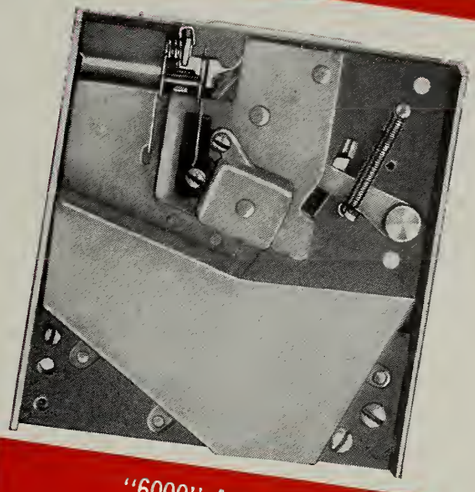
A.B.T.'s Newest COIN Detector

"6000" A. B. T.
Commercial Coin Detector
(Front View)

The "6000" commercial coin detector, ABT's newest detector. It is completely new, NOT a revamp or old model made over.

This fine, economically priced detector operates nearer to perfection than other detecting devices for coin-operated machines.

The "6000" is simply constructed, but very sturdy and compact. Rapid, flawless action is assured because of non-corrosive metal. Easy to clean, it requires no expert skill.



"6000" A. B. T.
Commercial Coin Detector
(Back View)

- ★ Made in 1c—5c—10c—25c play.
- ★ Our engineers will gladly demonstrate the exceptional merits of this superior detector.
- ★ Send for illustrated literature. Join our customer list.
- ★ We welcome inquiries and give them prompt attention.

Bally

IS IN THE FIGHT TO THE FINISH!

The Bally Organization is working day and night, 'round the clock, producing vital war matériel for our fighters. And Bally will continue to be in the "thick" of it until final victory is won, and attention can be again directed to peacetime pursuits and the manufacture of famous Bally games and venders.
